

The American Catfishing Association in cooperation with several states in the region along with Dr. Bill Dance and the Tennessee Fish and Wildlife Commission's Chairperson Ms. Angie Box has been diligently working on catfish regulation reform in many states in the central and southern Mississippi River areas. Among these states in the region is Arkansas. Currently the State of Arkansas has a regulation reform addendum that will soon be voted on. The commercial fishing industry is strongly opposed to this new regulation and is collecting signatures against this important reform.

**We need the support of the entire catfish community for this important regulation and show the commission how important this proposed regulation is for our valued fisheries resources.**

***ARKANSAS GAME AND FISH PROPOSED REGULATION***

***The regulation would limit 1 catfish over 34" per day for both recreational and commercial fisherman.***

**YOUR SUPPORT FOR THIS REGULATION IS GREATLY NEEDED!**
